Intended use

Your Black & Decker Dustbuster® hand-held vacuum cleaner has been designed for light dry vacuum cleaning purposes. This appliance is intended for household use only.

Design and Patent information

European Patent Application Number EP 05255024.1

European Community Design Registration Numbers:
423322-0001, 423322-0002 and 423322-0003

Safety instructions

Warning! When using battery-powered appliances, basic safety precautions, including the following, should always be followed to reduce the risk of fire, leaking batteries, personal injury and material damage.

- ◆ Read all of this manual carefully before using the appliance.
- ◆ The intended use is described in this manual. The use of any accessory or attachment or the performance of any operation with this appliance other than those recommended in this instruction manual may present a risk of personal injury.
- ◆ Retain this manual for future reference.

Using your appliance

- ◆ Do not use the appliance to pick up liquids or any materials that could catch fire.
- ◆ Do not use the appliance near water.
- ◆ Do not immerse the appliance in water.
- ◆ Never pull the charger lead to disconnect the charger from the socket. Keep the charger lead away from heat, oil and sharp edges.

After use

- ◆ Unplug the charger before cleaning the charger or charging base.
- ◆ When not in use, the appliance should be stored in a dry place.
- ◆ Children should not have access to stored appliances.

Inspection and repairs

- ◆ Before use, check the appliance for damaged or defective parts. Check for breakage of parts, damage to switches and any other conditions that may affect its operation.
- ◆ Do not use the appliance if any part is damaged or defective.
- ◆ Have any damaged or defective parts repaired or replaced by an authorized repair agent.
- ◆ Regularly check the charger lead for damage. Replace the charger if the lead is damaged or defective.
- ◆ Never attempt to remove or replace any parts other than those specified in this manual.

Battery and charger

- ◆ Never attempt to open the battery.
- ◆ Do not expose the battery to water.
- ◆ Do not incinerate the battery.
- ◆ Do not expose the charging base to water.
- ◆ Do not open the charging base.

Electrical safety

Your charger has been designed for a specific voltage. Always check that the mains voltage corresponds to the voltage on the rating plate. Never attempt to replace the charger unit with a regular mains plug.

Symbols on the charging base

Your charging base is double insulated; therefore no earth wire is required.

Fail-safe isolating transformer. The mains supply is electrically separated from the transformer output.

The charger automatically shuts off if the ambient temperature becomes too high. As a consequence the charger will be inoperable. The charging base must be disconnected from the mains supply and taken to an authorised service centre for repair.

The charging base is intended for indoor use only.

Features

1. Release latch for container door
2. Container door
3. Collector lock button
4. Two-speed on/off switch
5. Filter cleaning wheel
6. Charging indicator
7. Charging base
8. Dust collector extension
9. Dust collector

Fig. D

10. Crevice tool (optional, see packaging)
11. Brush tool (stored in underside of appliance)

Installation

Fitting the charging base to the wall (fig. A)

The charging base can be placed on a work top or fitted to the wall to provide a convenient storage and charging point for the appliance.

When fixing to a wall, make sure that the fixing method is suitable for the wall type and is appropriate to the weight of the appliance.

Assembly

Adjusting the dust collector (fig. B & C)

- ◆ The dust collector (9) is stored under the appliance. To adjust for use, lift the appliance from the charging base.
- ◆ Press the collector lock button (3) and rotate the dust collector to the required position.
- ◆ Release the collector lock button to lock the dust collector in position.
- ◆ The dust collector can be extended by pulling the dust collector extension (8) until it locks into position.
- ◆ The extension can be retracted by pressing the button (13) and pushing the extension back into the dust collector.
- ◆ The dust collector should be returned to the storage position under the appliance after use and while charging the appliance.

Fitting the accessories (fig. D)

These models are supplied with some or all of the following accessories:

- ◆ A crevice tool (10) for confined spaces.
- ◆ A brush tool (11) for furniture and stairs.

To fit an accessory, proceed as follows:

- ◆ Take the accessories from the appliance.
- ◆ Insert the appropriate accessory into the front of the appliance.

Use

- ◆ Before first use, the battery must be charged for at least 16 hours.
- ◆ Place the appliance on the charging base whenever it is not in use.

Charging the battery (fig. E)

- ◆ Make sure that the appliance is switched off. The battery will not be charged with the on/off switch in the on position.
- ◆ Place the appliance on the charging base (7) as shown.
- ◆ Plug in the charger. Switch on at the mains.

The charging indicator (6) will be lit.

- ◆ Leave the appliance to charge for at least 16 hours.

While charging, the charger may become warm. This is normal and does not indicate a problem. The appliance can be left connected to the charger indefinitely. The charging indicator (6) will be lit as long as the appliance is connected to the plugged-in charger.

Warning! Do not charge the battery at ambient temperatures below 4 °C or above 40 °C.

Switching on and off (fig. F)

- ◆ To switch the appliance on, slide the on/off switch (4) forward to position 1.

- ◆ For full power, slide the on/off switch (4) forward to position 2.
- ◆ To switch the appliance off, slide the on/off switch (4) back to position 0.

Optimising the suction force (fig. G - I)

In order to keep the suction force optimised, the filters must be cleared regularly during use.

- ◆ Rotate the wheel (5) a few turns to shake out dust clogging the filters (14 & 15).

Cleaning and maintenance

Warning! Regularly clean the filters (14 & 15).

Cleaning the dust container and filters (fig. H - J)

The filters are re-usable and should be cleaned regularly.

- ◆ Press the release latch (1) and open the container door (2) (fig. H).
- ◆ Empty the dust container.
- ◆ Remove the filters (14 & 15) by twisting them counter-clockwise (fig. I).
- ◆ Brush any loose dust off the filters.
- ◆ Wash the filters in warm, soapy water (fig. J).
- ◆ Make sure that the filters are dry.
- ◆ Refit the filters (14 & 15) on to the appliance, twisting them clockwise until they lock into place.
- ◆ Close the container door (2). Make sure that the release latch (1) clicks into place.

Warning! Never use the appliance without the filters.

Optimum dust collection will only be achieved with clean filters.

Replacing the filters

The filters should be replaced every 6 to 9 months and whenever worn or damaged. Replacement filters are available from your Black & Decker dealer (cat. no. VF50):

- ◆ Remove the old filters as described above.
- ◆ Fit the new filters as described above.

Protecting the environment

Should you find one day that your appliance needs replacement, or if it is of no further use to you, think of the protection of the environment. Black & Decker repair agents will accept old Black & Decker tools and ensure that they are disposed of in an environmentally safe way.

Separate collection of used products and packaging allows materials to be recycled and used again. Re-use of recycled materials helps prevent environmental pollution and reduces the demand for raw materials.

Local regulations may provide for separate collection of electrical products from the household, at municipal waste sites or by the retailer when you purchase a new product.

Black & Decker provides a facility for the collection and recycling of Black & Decker products once they have reached the end of their working life. To take advantage of this service please return your product to any authorised repair agent who will collect them on our behalf.

You can check the location of your nearest authorised repair agent by contacting your local Black & Decker office at the address indicated in this manual. Alternatively, a list of authorised Black & Decker repair agents and full details of our after-sales service and contacts are available on the Internet at: www.2helpU.com.

Guarantee

Black & Decker is confident of the quality of its products and offers an outstanding guarantee. This guarantee statement is in addition to and in no way prejudices your statutory rights. The guarantee is valid within the territories of the Member States of the European Union and the European Free Trade Area.

If a Black & Decker product becomes defective due to faulty materials, workmanship or lack of conformity, within 24 months from the date of purchase, Black & Decker guarantees to replace defective parts, repair products subjected to fair wear and tear or replace such products to

make sure of the minimum inconvenience to the customer unless:

- ◆ The product has been used for trade, professional or hire purposes.
- ◆ The product has been subjected to misuse or neglect.
- ◆ The product has sustained damage through foreign objects, substances or accidents.
- ◆ Repairs have been attempted by persons other than authorised repair agents or Black & Decker service staff.

To claim on the guarantee, you will need to submit proof of purchase to the seller or an authorised repair agent. You can check the location of your nearest authorised repair agent by contacting your local Black & Decker office at the address indicated in this manual. Alternatively, a list of authorised Black & Decker repair agents and full details of our after-sales service and contacts are available on the Internet at:
